Regarding 6b, lets try to find a time to chat. This may be a work-around to the hazard labelling approach that is part of the handbook examples like the Cr6+ protocol.

Thanks.

Subject: STPC March 27 Meeting: Issues and a Clarification

Dear SSP members,

- A. We have been having some issues with the STPC mailbox – this has resulted in the meeting calendar invite having multiple copies of each attachment.

I am attaching a single copy of each attachment (total 8) to this e-mail for easier viewing and printing.

- B. A short clarification regarding Agenda Item 6b:

The attached document (no. 6b: Recommended Actions to improve ERA) is NOT an Ecological Risk Assessment 5-Year Action Plan but contains recommendations for the development of 5-year Action Plan that need to be vetted through states and tribes.

- C. It appears that the Science Advisor, Dr. Orme-Zavaleta, may have to testify before Congress the day of the meeting. In that case, the Director of OSA, Dr. Tom Sinks, will chair the meeting.

Thanks for your understanding,

Anand
